Guide to 3D Archery - Bowhunting 360

Perhaps the most unique thing about 3D archery, in comparison with its counterparts, is the scoring method..

Even the larger 3D targets like those meant to represent bear or moose often have a smaller target area than those on regular cube or bag targets that sport the circular bullseye..

Additionally, they're

Online Library 3 D Archery A Guide To Course Design

not typically placed in the center of the target like they are on cube or bag targets.

What are the Differences to conventional Archery?
In conventional archery, you shoot standing on a target. A ring scoring takes place, i.e. the corresponding points are added up and evaluated after the shots are fired.
