A construction contract agreement is a principal document that sets a date and specifies which parties are going to participate in the construction process. Usually, the contract agreement is executed between the owner of the project and the contractor (or supplier) that is providing the requested service.

Learn the 7 Basics of Construction Contracts

A construction contract provides a legal binding agreement, for both the owner and the builder, that the executed job will receive the specific amount of compensation or how the compensation will be distributed. There are several types of construction contracts used in the industry, but there are certain types of construction contracts preferred by construction professionals.

4 Common Types of Construction Contracts

A construction contract is a legal document that is used to describe the services and costs associated with a construction project. A construction contract could be used for a home or business. Depending on the client, a construction contract will contain different information. For example, a residential contract will contain different information from a commercial construction contract. All construction contracts should detail the project scope, construction schedule, and payment schedule.
