Floor Plans Using Grid Paper

Graph paper, which is paper covered in a square grid, makes it easy to maintain scale; you simply assign each square a specific size, such as 1 square foot, which means each side of the square equals 1 foot. Once you've designated a scale measurement, you can lay out your room by measuring its dimensions and the size of the furniture within it.

How to Make a Basic Floor Plan With Graph Paper | eHow

Don't use graph paper that has the floor plan for the room drawn on it. This way, you can cut out the scale drawing for each piece of furniture and move it around on the floor plan drawing. If you're using a scale ruler instead of graph paper, just draw the furniture plans on blank paper to the same scale as the floor plan.

How to Draw a Floor Plan to Scale: 13 Steps (with Pictures)
