SolarWinds offers a number of on-premises and SaaS network, systems, database, security, IT service, and applications monitoring and management tools through a subscription model. See the table below for a list.

Licensing Options | SolarWinds

SolarWinds NPM Review "All of the SolarWinds products work hand in hand. So the data collected by any of the tools, and can be accessed on the 1 device page view. The products all play part of a successful monitoring solution. And when reporting, all the data that is collected by the different tools, can be displayed on the 1 report."
