Sten Mk II's in German possession were designated MP 749(e), the "e" signifying englisch. Some Mk IIs were fitted with a wooden stock as this part was desirable and interchangeable with the Mk V. The Spz-kr assault rifle, a rudimentary German design made in the closing stages of the war, used the receiver and components from the Sten Mk II, and the MP 3008 was made

Sten - Wikipedia

The Sten gun remained in service until the late 1950s. The most common version of the Sten gun was 30 inches (76.2 cm) long with a barrel of 7.5 inches (19 cm). It fired at a rate of 550 rounds per minute, and it had a 32-round box magazine that, however, tended to jam if more than 30 rounds were loaded.

Milsurps Knowledge Library - Blueprints for The STEN MKII ...

Here is Foster's modernized Sten MKII before the finishing touches. Foster wrapped the grip and added an SB Tactical FS1913 folding brace in the interim while waiting for his Form 1 to be approved. This Sten MKII pistol looks like a lot of fun and with the small additions of adding Picatinny rails to the top and back, it is a lot more practical.
