Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

This was before 6th Edition Tau were even released, so it makes sense that nobody even knew about the Riptide aside from the weeks preceding the new codex, but what is interesting is that, given the fluff behind the R'varna, it's almost as though Forgeworld chuckled at the rumors and used those as a basis for their fluff, going so far as to ...

## **Battlesuit - 1d4chan**

The limitations got removed as of the 6th edition codex, however, and Farsight can now even bring Ethereals with him (even though fluff-wise Aun'Shi is the only Ethereal he'd associate with). On top of that, Farsight, along with his retinue of samurai—uh, I mean battlesuit aces, is now a beatstick.

I'd like to add that if 7th edition does land, we won't be seeing a 7th edition codex overhaul and money grab. We'd continue to see Supplements and Minidexes, Dataslates and other additional rules. Certain codexes as they begin to express the signs of age would receive free errata and digital updates for those who bought e-versions.
