Math in Focus is a great choice if you plan to do manipulatives or plan to teach your child in a one-on-one tutor style. We used this for homeschool this year and I thought it was great at first, but then realized that it has a lot of graphics that were very distracting and not a lot of explanation.

Stock No: WW560090. Math in Focus Grade 8 Course 3 B provides the student with the text to read for their lessons during the second semester of Grade 8. This textbook covers the Pythagorean theorem, geometric transformations, congruence and similarity, statistics, and more. Worked examples are provided alongside helpful explanatory text; guided practice questions, practice sets, and hands-on activities are also included.

Math in Focus Grade 8 Student Edition Volume B ...

A major difference between Primary Mathematics and Math in Focus is seen in the actual content of the textbooks themselves. The Math in Focus student texts are very guided. Using the textbook, one gets the feeling that students are expected to teach themselves from the materials, however, in doing so, they lose the concrete portion of the lesson that is a hallmark of the Singapore approach.
