Micro and Macro Typography in Web Design - Line25
Macro typography includes, amongst other things, the margins – the distances between individual text containers – and the contrast of the font. Micro typography takes care of the detail in the typeface. All factors that affect the font itself fall into this category. For example, the font selection and font size are microtypographic elements.

Enable or disable macros in Office files - Office Support
Microtypography is the name given to a range of methods for improving the readability and appearance of text, especially justified text. The methods reduce the appearance of large interword spaces and create edges to the text that appear more even. Microtypography methods can also increase reading comprehension of text, reducing the cognitive load of reading.
