B18 Engine Volvo

This B18 is a 1.8 litres (1,778 cc) automobile Inline-four engine produced by Volvo from 1961 through 1968. The cam-in-block engine had overhead valves (OHV) operated by pushrods. The crankshaft rode in five main bearings, making the B18 quite different in design from its predecessor, the three-bearing B16. A larger 2.0 litres (1,986 cc) version called the B20 appeared in 1969.

Volvo owes at least part of its legendary reputation for durability to the B18 engine, the inline-four that proved itself capable of rolling up interstellar mileages at a time when getting 100,000 miles out of an engine was unheard of. Introduced to power the company's new P-1800 coupe, the B18 was eventually offered in the 122S and PV-544, as ...
