Each of the six rows is a different permutation of three distinct balls. In mathematics, a permutation of a set is, loosely speaking, an arrangement of its members into a sequence or linear order, or if the set is already ordered, a rearrangement of its elements. The word "permutation" also refers to the act or process of changing the linear order of an ordered set.

Permutation - Wikipedia

To have the line numbers restart on each new page, select "Restart Each Page" instead. Once selected, the line numbers will appear on the left side of the document page. Line numbers will appear only in the print view mode, so if you have another viewing mode selected, click on the "Print Layout" button in the bottom-right corner of your Word document window.

How to Add Line Numbers to a Microsoft Word Document

Select "First Line" to automatically indent the first line of each new paragraph. 4. Enter the indent size. This is the amount that each line will be indented. The most commonly used size is 0.5" or 1/2 of an inch. You can see a preview of the changes in the Preview section at the bottom of the dialog box. 5. Click OK to ...
