### Department of Mechanical & Industrial Engineering

The Department of Mechanical and Industrial Engineering (MTP) has broad interdisciplinary expertise in the fields of logistics, machine design, product development, materials science and risk and reliability of complex systems. The research at the department focuses on development, optimasation and improvement of industrial processes and production systems.

### Department of Mechanical and Industrial Engineering - NTNU

The Department of Mechanical and Industrial Engineering offers more than 20 state-of-the-art laboratories and facilities, including the Centre for Near-net-shape Processing of Materials.

### Mechanical and Industrial Engineering - Ryerson University

The Mechanical and Industrial Engineering Department is one of three departments in the School of Engineering which falls under the auspices of the College of Science, Engineering and Technology. There are two disciplines in the department namely Mechanical Engineering and Industrial Engineering. Mechanical and Industrial Engineers are equipped to make a difference within the various diverse environments that they may find themselves in.
