However, since it gets downloaded in a zip file you need a special app or use your computer to unzip the zip folder.

Detroit Diesel 8v92ti Spec

The Detroit Diesel Series 92 is a two-stroke cycle, V-block diesel engine, produced with versions ranging from six to 16 cylinders. Among these, the most popular were the 6V92 and 8V92, which were V6 and V8 configurations of the same engine respectively. The series was introduced in 1974 as a rebored version of its then-popular sister series, the Series 71. Both the Series 71 and Series 92 engines were popularly used in on-highway vehicle applications.

Detroit Diesel Series 92 - Wikipedia

The Detroit Diesel 8V92 is a V-8, two-stroke diesel engine, and was first introduced in the mid-1970s. This engine has a displacement of 738 cubic inches (12.1 liters). A turbocharged version was developed later on. This engine was particularly popular for buses and trucks, but was also used in construction equipment and other applications.

Anyone have any good fuel consumption data on 8v92's at about 1200 RPM? Planning some long Island "cruises" this summer. I know at 1950 and 17 or 18 knots I do approx 52 gals an hour with genny. Did the Tortugas at 10 knots at about 1200 RPM last summer, but also made some "planning" legs....but I thought I was at about 20 gals an hour with genny.
