Ego (Latin: "I"), according to Freud, comprises the executive functions of personality by serving as the integrator of the outer and inner worlds as well as of the id and the superego. The ego gives continuity and consistency to behaviour by providing a personal point of reference which relates the events of the past (retained in memory) with actions of the present and of the future ...

The ego is a veil between what you think you are and what you actually are. You live under the illusion of the mind, totally unaware that you are directed by a great big load of stories! — Isira Sananda. Your ego was created, and is currently maintained, by the belief that you are “separate” from others and life itself.
