From Pexels Introduction. There are a lot of ways to improve on out-of-the-box machine learning models. There are things you can do both with the models and the data to obtain better results than you would from the standard scikit-learn version of a model. There is feature engineering, hyper-parameter tuning, and selecting the correct cost function.

How To Do Error Analysis To Make All of Your Models Better ...

Richards, Jack C. This is a discussion of another phase of bilingualism--structural difficulties in the target language of the student which impede his second language acquisition. The paper focuses on errors in learning English which do not derive from transfers from another language, and which cannot be predicted from contrastive analysis.

Errors vs. mistakes. Chomsky (1965) made a distinguishing explanation of competence and performance on which, later on, the identification of mistakes and errors will be possible, Chomsky stated that "We thus make a fundamental distinction between competence (the speaker-hearer's knowledge of his language) and performance (the actual use of language in concrete situations)" (1956, p ...
