The manual match for when Quicken Windows when not in automatic entry mode works differently. With a downloaded transaction selected in the Downloaded Transactions tab, the user can select a menu item to manually match. This pops up the same dialog as explained above, but the criteria for the list is different.

### Manual match download window — Quicken

"The paycheck amount does not match. You should to the Bills tab and enter this paycheck, making any necessary adjustments. Then go to the register and use Manual Match to match the deposit to the downloaded transaction." How do I do this?

### How do I manually match transactions? — Quicken

When manually match downloaded transaction, there are items in the list that have already been matched. How do clear them so they no longer display in the list of transactions to manually match? 0

### How do I clear transactions from the manual match list ...

For manual matching you can match a transaction that isn't for the same amount if you are doing the manual matching from the Downloaded Transactions tab. Personally I found that to be a pain because if you match to a transaction with a different amount what it will do is create a split transaction with the amount from the one that was in the register as one line, plus another line to balance it out with the amount downloaded.

### Quicken No Longer Matches Downloaded Transactions To Those ...

If the selected transaction is not currently marked as Matched, but should be matched to one or more transactions already in your Quicken register, click the Edit button and then choose Match Manually. Quicken opens a window to allow you to select one or more transactions.

### Handling Downloaded Transactions - Quicken

## File Type PDF Quicken Manual Match

Quicken determines which transactions are eligible for Manual Match based on whether the transactions have been "downloaded" before... not whether they are cleared or reconciled. Virtually any transaction that has not already been downloaded is eligible for Manual Match.
