everyday, but unspoken give-and-take of human relationships, the “silent language” plays a vitally important role. Here, a leading American anthropologist has analyzed the many ways in which people “talk” to one another without the use of words. The pecking order in a chicken yard, the fierce competition in a school playground, every unwitting gesture and action—this is the vocabulary of the “silent language.”.

Fortunately, even before the first Peace Corps volunteers were posted overseas, a cultural anthropologist named Edward T. Hall had studied the roots of culture shock in great detail and published his findings in a compelling book, *The Silent Language*. Those of us who served in the early years of the Peace Corps benefited directly from Hall's insight.

Edward Twitchell Hall, Jr. (May 16, 1914 – July 20, 2009) was an American anthropologist and cross-cultural researcher. He is remembered for developing the concept of proxemics and exploring cultural and social cohesion, and describing how people behave and react in different types of culturally defined personal space. Hall was an influential colleague of Marshall McLuhan and Buckminster Fuller.
